

**PRODEVA, INC.**

# INCLINE AND BALER FEED CONVEYORS

Our heavy duty incline and baler feed conveyors are designed to convey any product or material. The standard units are 48" wide and 17' long, equipped with a 2 HP motor and drive making them ideal for feeding balers, shredders and compactors, or to just transport material.

Prodeva, Inc. understands that our standard equipment may not always meet your exact needs. That is why these conveyors are available in any length or width that may be necessary for your application. Like all Prodeva, Inc. equipment, these machines are designed for rugged use and long life.
