ADJUSTABLE HEIGHT
GANTRY CRANE
series AHS

48 Hours
to Ship

Steel Gantry
Cranes are
adjustable left/right
and up/down.

4-POSITION 8"
SWIVEL CASTERS
(standard)

TOTAL LOCKING CASTERS

model AHS-2/4-TLC
(FOR 2,000 AND 4,000 LB.
CAPACITY CRANES ONLY)

model AHS-6/8-TLC
(FOR 6,000 AND 8,000 LB.
CAPACITY CRANES ONLY)

Video
Available

V-GROOVE CASTERS

model AHS-2/4-V
(FOR 2,000 AND 4,000 LB.
CAPACITY CRANES ONLY)

model AHS-6/8-V
(FOR 6,000 AND 8,000 LB.
CAPACITY CRANES ONLY)

Adjustable Steel Gantry Cranes

Industrial Steel Gantry Cranes are designed for positioning materials along the beam's length. Solid steel construction will provide years of service. Facilitate easy mobility from one area to another with four (4) 8" glass filled swivel casters with four-position locks (model AHS-10-15-10 has steel casters). More economical and flexible than permanent cranes. Features quick setup design. Order optional lever ratchet for easy one person height adjustment. Height is adjustable in 6" increments. Do not move units while loaded. Painted blue finish. Designed for semi-permanent or permanent applications. Requires assistance from fork truck to set-up. Hoist and trolley can be ordered separately, see pages F8-F12.

ADJUSTABLE STEEL GANTRY CRANE OPTIONS

AHS-2/4-TLC	TOTAL LOCKING CASTERS (2,000 & 4,000 LB. CAPACITY CRANES ONLY) (SET OF 4)
AHS-6/8-TLC	TOTAL LOCKING CASTERS (6,000 & 8,000 LB. CAPACITY CRANES ONLY) (SET OF 4)
AHS-2/4-V	8" x 2" V-GROOVE CASTERS FOR 2,000 & 4,000 LB. UNITS (SET OF 4)
AHS-6/8-V	8" x 3" V-GROOVE CASTERS FOR 6,000 & 8,000 LB. UNITS (SET OF 4)
AHS-KIT	(2) COME-A-LONGS FOR HEIGHT ADJUSTMENT (NOT FOR LIFTING)

USABLE DISTANCE BETWEEN UPRIGHTS IS OVERALL BEAM LENGTH MINUS 12"
USABLE TROLLEY TRAVEL LENGTH IS OVERALL BEAM LENGTH MINUS 30"

Note: All products should be inspected frequently to insure safe operation. Final testing and inspection is left to end user after final assembly has been completed. For further details see ASME B30.17.

Adjustable Steel Gantry Cranes - Knockdown

The Adjustable Knockdown Steel Gantry Cranes are uniquely designed to be disassembled when not in use for compact storage and easier transportation / shipping from one job site to another. These cranes have all of the standard features of the AHS cranes with the added bonus of being able to disassemble the unit into a small storage envelope.

These units facilitate easy mobility from one area to another with four (4) 8" swivel casters with four-position locks. More economical and flexible than permanent cranes. Features quick setup design. Order optional lever ratchet for easy one person height adjustment. Height is adjustable in 6" increments. Do not move units while loaded. Painted blue finish. Designed for semi-permanent or permanent applications. Requires assistance from fork truck to set-up. Caster options are located on the bottom of page F2. Hoist and trolley can be ordered separately, see pages F8-F12.

ADJUSTABLE STEEL GANTRY CRANES - KNOCKDOWN series AHSN

HOIST & TROLLEY SOLD SEPARATELY. SEE PAGE F8 THRU F12

KNOCKDOWN INDIVIDUAL COMPONENTS CAN BE STORED WHEN CRANE IS NOT NEEDED

KNOCKDOWN DESIGN ALLOWS FOR COMPLETE CRANE DISASSEMBLY FOR LOWER FREIGHT AND TRANSPORTATION COSTS

Note: All products should be inspected frequently to insure safe operation. Final testing and inspection is left to end user after final assembly has been completed. For further details see ASME B30.17.

Steel Gantry Crane Power Traction Drive Options

The Power Traction Drive Option for a gantry crane is ideal for industrial manufacturing environments. The power traction drive allows the gantry crane to be moved to a desired position without need of extra personnel. The unit is maneuvered by a three (3) button push button control for precise movements, while being driven by 460V, 3 phase power. Do not move units while loaded.

FACTORY INSTALLED OPTION ONLY

MODEL NUMBER	DESCRIPTION
GPTD-2	2,000 TO 4,000 LB. UNIFORM CAPACITY/STD. WITH 3 BUTTON HAND CONTROL
GPTD-4	6,000 TO 8,000 LB. UNIFORM CAPACITY/STD. WITH 3 BUTTON HAND CONTROL
V-TRACK	10 FOOT SECTION OF V-GROOVE TRACK (ONE SIDE ONLY)

ADDITIONAL BUTTONS ON HAND CONTROL FOR HOIST & TROLLEY AVAILABLE, CONTACT FACTORY

Festoon System

Designed to keep power cords out of danger when using electric trolleys and/or hoists. Easily retrofits to any gantry or jib crane up to 240" (20 ft.) in length. Includes 22 feet of wire rope. 115V AC cord supplied. Works with both Steel and Aluminum Gantry Cranes.

to Ship

MODEL NUMBER	DESCRIPTION	NET WT. (POUND)
FES-KIT	KEEPS POWER CORDS OUT OF DANGER	16

Work Area Portable Steel Gantry Cranes

Designed to maximize material handling requirements in light-duty lifting applications. Lightweight fixed height design allows for easy mobility. Includes (4) 5" x 2" poly-on-steel swivel casters with brake. The straddle width is 68". Overall I-beam length is 80" with a usable length of 70". Do not move units while loaded. Steel construction with blue powder coat finish. Bolt together installation. Hoist and trolley can be ordered separately, see pages F8-F12.

Mini Overhead Cantilever Jibs

Utilize this unique jib in work cells and work areas. Unique fixed-height design allows for the 39⁷/₈" long outriggers to be mounted underneath a work bench. Easily lift product from cart to workbench. Straddle width is 47¹/₄" (ID). Hoist and trolley can be ordered separately, see pages F8-F12. Steel construction with painted blue finish.

POWDER COATED TOUGH

Extra Travel Tri-Post Jibs

This unique jib was designed for use in workstations. Place over the top of your workbench. Extra travel fixed-height I-beam overhangs workbench to allow lifting of products from cart to bench. I-Beam flange is 2.66" and the height is 4". Usable I-beam length is 80". Hoist and trolley can be ordered separately, see pages F8-F12. Steel construction with painted blue finish.

Floor Mounted Jibs

This fixed height Floor Mounted Jib adapts well to many applications. Full 360° rotation allows personnel to completely utilize their workstation. Solid steel construction with blue finish assists workers in lifting awkward material. The overall I-beam length is 80" with a usable length of 70". Requires reinforced concrete pad for installation. Hoist and trolley can be ordered separately, see pages F8-F12.

ROTATES A FULL 360 DEGREES series JIB-FM

Wall Jibs (for low ceilings)

Designed to assist workers in the maneuvering of materials as well as achieving maximum headroom where low ceilings are of concern. This cantilever style jib crane mounts to true vertical wall members. Increases personnel productivity by lifting awkward materials. The overall I-beam length is 88" with a usable length of 80". Overall length of jib is 96½". Unit rotates 180°. Steel construction with painted blue finish. Hoist and trolley can be ordered separately, see pages F8-F12.

Tie Rod Jibs (for high ceilings)

Achieve maximum floor space and utilize wasted air space. Mount to walls or columns to increase hook coverage over workstations. Unit rotates 180°. Usable I-beam length is 80". All steel construction provides years of service. Steel construction with painted blue finish. Hoist and trolley can be ordered separately, see pages F8-F12.

Pallet Truck Hoist

The pallet truck hoist is an affordable and practical alternative for lifting and lowering loads to and from elevated work stations. It provides workers with a mobile lifting jib that quickly secures to a standard 27" x 48" pallet truck. Fork pockets measure 7¾"W x 1⅞"H inside on 19¾" centers. Once installed, the pallet truck can still be used with most pallets and skids allowing for transport of heavy pallet loads while retaining the ability to lift and lower loads to and from the pallet. It uses a clutchless cable winch with 80" of cable (88" with hook and shackle) for easy lifting and lowering. Lower load onto forks before moving. Steel construction with water-based blue enamel coat.

Adjustable Height Aluminum Gantry Cranes with Pneumatic Casters

The Adjustable Height Aluminum Gantry Crane is ideal for the manufacturing and maintenance facilities. The aluminum construction is lightweight, yet, strong for long lasting durability through the harshest of environments. The pneumatic casters allow the user to quietly move the crane from workstation to workstation and smoothly roll over rough surfaces, while not marring. The four-way locking pneumatic casters permit the user to place the crane in preferred transporting and stationary positions. Do not move units while loaded. Uniform capacity is 1,500 pounds.

Note: All products should be inspected frequently to insure safe operation. Final testing and inspection is left to end user after final assembly has been completed. For further details see ASME B30.17.

Adjustable Height Aluminum Gantry Cranes

The Adjustable Height Aluminum Gantry Cranes combine lightweight and rigid construction into one unit. The all aluminum construction of this gantry crane makes it corrosion resistant and perfect for outdoor use. The lightweight I-beam allows height adjustment without the need of a hoist or fork truck. Features quick setup design. Included are two (2) straps, allowing transport of the gantry crane in one neat package. Facilitate easy mobility from one area to another with four (4) 8" glass filled swivel casters with four-position locks. Height is adjustable in 6" increments. Do not move units while loaded. Hoist and trolley can be ordered separately, see pages F8-F12.

Note: All products should be inspected frequently to insure safe operation. Final testing and inspection is left to end user after final assembly has been completed. For further details see ASME B30.17.

Quick Install Manual Trolleys

These trolleys are dependable, safe, and easy to use. Designed to easily adjust to the width of virtually any S, H, W, and M type I-beam. Width is adjusted with manual screw mechanism. Includes locking ring to prevent trolley width from changing accidentally. Manual screw mechanism may also be tightened to prevent trolley from moving (similar to a Beam Clamp). Each trolley includes four (4) rollers with sealed bearings for long life. A lifting eye is located at the bottom of the trolley for attaching a hoist (not included). Steel construction and painted finish.

Low Profile Manual Trolleys

These trolleys have been designed to quickly install on virtually any S and H type I-beam. The width of the trolley is adjusted by rotating the center rod with lifting eye clockwise or counterclockwise. Once hoist is attached, center rod cannot be rotated which prevents trolley width from accidentally changing. The trolley includes four (4) rollers with sealed bearings. Choose either push trolley or geared trolley. Geared trolley is ideal for use when precise positioning is required. A lifting eye is located at the bottom of the trolley for attaching a hoist (sold separately). Steel construction and painted finish. Headroom is measured from bottom of wheel to bottom of hooking eye.

Professional Lever Hoists (disc brake)

Hoists can be used at any angle and feature a 50% wider ratchet gear, high impact restraint gear case, and brake cover. Upper and lower swivel hooks with deformation indicators. Load chain guide system (allows operation in horizontal position). Minimum breaking load is 4 times that of rated capacity. Manufactured to ISO9002 quality standard. Every unit is tested to 150% of rated capacity and is issued with an individual test certificate.

ADDITIONAL 12 POCKET TOOL STORAGE BAG, model BAG-12

Mighty Mini Lever Hoists (disc brake)

Lightweight mini lever hoists are durable and easy to operate. Single-hand "free chaining" is simple, allowing for trouble-free operation in the vertical or horizontal position. All the main parts are made of alloy steel and heat treated (more durable and longer life). Long life brake discs. Short lever handle can rotate in a complete 360° circle. Each hoist is tested to 150% of rated capacity. Features lightweight high strength grade 80 black finish load chain.

Professional Hand Chain Hoists

These lightweight hoists are durable and easy to operate. Compact design and low headroom allow installation in confined areas. Heat-treated spur gear efficiently designed to provide smooth load handling and low hand chain pull. Reinforced double pawl brake system and larger diameter pawl springs ensure reliable braking. Designed with a safety factor 4 times the rated capacity. Individually tested at 150% of the rated capacity. Features lightweight, high strength grade 100 alloy steel load chain 25% stronger than grade 80 chain, galvanized pull chain, and forged steel upper and lower hooks with safety latches. Meets ANSI B30.16-2003 requirements.

Electric Chain Hoists 115V 1-PHASE & 460V 3-PHASE STANDARD

Ruggedly built with power to handle most industrial lifting applications. Includes push-button hand pendant with raise and lower functions on a 6' cord. Single (1) and three (3) phase AC power available. Optional Chain Container stores surplus chain overhead to keep from interfering with operation. Additional lifting heights and speeds available, contact factory.

High Speed Electric Chain Hoist 115V 1-PHASE STANDARD

This high speed single phase electric chain hoist offers the ability to lift heavy loads with ease and precision. Light, compact and powerful, this hoist can be easily installed, transported and offers high lifting speed. Features include double braking system for added protection, heavy-duty motor for industrial applications, high performance friction clutch to prevent overwinding and corrosion-resistant nickel-plated load chain. Chain container comes standard.

MODEL NUMBER	UNIFORM CAPACITY	FEET PER MINUTE	HEAD ROOM	LIFT (FEET)	POWER	NET WT. (POUND)
ECH-ED-10-1PH	1,050 lb.	22	20½"	10	1 PHASE	46

Air Powered Chain Hoists

Heavy-duty air chain hoist can be used as a workstation hoist or as a production line hoist. Lightweight, rugged, and compact design - for ease of portability - makes this hoist perfect for most air hoist lifting applications. Standard lift is 10 feet assuming 90 PSI air pressure. Variable flow, two (2) lever pendant for precise load spotting.

MODEL NUMBER	UNIFORM CAPACITY	LIFTING F.P.M.	LIFT (FEET)	NET WT. (POUND)

Drill Powered Hoist

Drilled powered hoist for powered lifting in remote locations. Hoist can be used in single or double line pull. 230in.-lbs. input torque required for maximum lifting capacity.

MODEL NUMBER	CABLE SIZE	UNIFORM CAPACITY	GEAR RATIO	CABLE LENGTH	NET WT. (POUND)
CSW-30	3/16"	1,200 lb.	103:1	40 foot	12

Hand Winches

Wall Mounted Hand Winches Pulling devices that use a wire, rope, cable, strap or web to move heavy loads. Constructed of steel worm gear drives with zinc plated finish. Pinion gear shaft with lubricated down bushings provide smooth operation and long life.

Stainless Steel Hand Winches are constructed of 304 stainless steel for corrosion resistance. Machine-cut spur gears ensure smooth accurate operation, while protective gear covers keep dirt out and help prevent worker injuries. Winches feature a drum clamp for easy attachment of wire rope (not included), and an automatic brake for positive load control during lifting and lowering operations.

MODEL NUMBER	TYPE	UNIFORM CAPACITY	GEAR RATIO	HANDLE LENGTH	NET WT. (POUND)

HWSS-2600-NR	SINGLE	2,600 lbs.	10:1	12½"	24

Manual and Worm Gear Hand Winches

Manual Hand-Operated Gear Drive Winch, model HWG-600, is designed for many lifting, lowering, and pulling applications. Equipped with a load pressure brake. This brake holds the load at any required height during hoisting and lowering and prevents any unintentional lowering of the load. Adjustable crank handle for fast lifting of smaller loads, resulting in lowest possible handle effort and rapid winding of the rope. All rotating parts are maintenance-free. Suitable for operation in ambient temperatures of 14° through 120°F. Capacity 600 pounds.

Worm Gear Hand Winch, model HWV-1000, allows for better load control and features a reinforced frame comfort-grip handle. Worm gear provides load holding capability when handle is released. Reel stops automatically, locking load in place whenever the handle is released. High quality enamel paint finish, dipped and baked. Crank handle can be adjusted in length. Winch housing and rope drum are made from robust steel plate. Capacity 1,000 pounds.

MODEL NUMBER	GEAR TYPE	WIRE ROPE	DRUM CAPACITY (FT.)	OVERALL SIZE (L x W x H)	NET WT. (POUND)

Positive Locking Plate Clamps

Grips sheet until release ring is pulled. Serrated gripper is hardened tool steel. Forged head and gear. Safety factor is 2 to 1. Powder coat finish. Designed to meet ASME B30.20 standards. Do not use plate clamps to lift loads less than 20% of rated capacity. Lift only one plate at a time. Plate must be clean and free of oil. *Not designed to use on stainless steel or aluminum plates. For use with materials with a surface hardness to 30 RC (300 HB).*

Vertical Plate Clamps

Pivoting bail for easier and more versatile operation. Automatic serrated hardened steel cams and pads. Drop-forged steel case for maximum strength. Designed to meet ASME B30.20. Warning: Do not exceed the working load limit. Serious bodily injury or property damage may result. Do not use plate clamps to lift loads less than 20% of rated capacity. Lift only one plate at a time. Plate must be clean and free of oil. *Not designed to use on stainless steel or aluminum plates. For use with materials with a surface hardness to 30 RC (300 HB).*

model BC-4

Beam Clamps

Designed to reduce the I-beam flange stress by distributing loads away from the flange edges during overhead lifting applications. These versatile units can be interchanged from one gantry to another in a matter of seconds with the easy mechanical adjustment mechanism. A bar is located at the bottom of the beam clamp for attaching a hoist (sold separately). Steel construction and painted finish.

NMPC-11

NMPC-11-4

Non-Marring Plate Clamps

Designed for lifting and revolving material without marring smooth or polished plates such as stainless steel, aluminum, pre-lacquered plates, wood, marble, concrete, glass, plastic, or other fragile surfaces. Designed to meet ANSI B30.20-24 standards. Clamps have a permanently attached chain sling with a large oval suspension ring and non-marring polyurethane coated jaws. Lift only one plate at a time.

Slab Lifters

Convert your fork truck (with swivel hook) or overhead lifting system into a slab lifter in a matter of seconds. Lifters meet or exceed the needs of the building and stone industries. Our innovative slab lifter is becoming a leader in the next generation of lifters. Pull cable or push button then start lifting and jaws will automatically grab and hold object. Adjustable jaws are rubber-coated to protect objects and automatically spring open when object is lowered to ground.

MODEL NUMBER	OVERALL SIZE (W x D x H)	GRIP RANGE	UNIFORM CAPACITY	NET WT. (POUND)

HEAVY-DUTY PIPE GRABS series PG-C

Galvanized Two-Speed Cable Puller

Great for use in horizontal pulling applications such as positioning equipment, stringing lines, and emergencies. Can be used in both single and double-line pulling applications. Handle ratchets to take up cable. When handle is rotated all the way back, the cable reel will free-spool. Handle length is 30". Minimum headroom is 24". Single-line cable length is 1/4" x 120" (cable length is 60" when used as a double-line). Not for use in vertical lifting applications.

Multi-Station Transportable Jib Cranes

Designed for use in multiple locations, includes jib crane and one base socket. Extra base sockets may be purchased for use in other locations. Friction brake design allows positive locking and controlled rotation of heavy loads. 360° continuous rotation of heavy loads. Handles most applications up to 1,000 uniform pounds and up to 120" radius reach. Standard 6" high I-beam with 4" flange width. Rugged welded steel construction. Hoist and trolley sold separately. Requires reinforced concrete pad for installation.

Portable Offset Jib Cranes

Offset base design allows for larger usable work area beneath I-beam. Allows for easy transportation of jib crane with fork truck. Fixed length I-beam will pivot 360° for complete access. Standard base with jib crane is not filled with concrete. Base may be ordered pre-filled with concrete for immediate use. Base size is 42-3/16" W x 42-3/16" L x 18"H or 36"H. Built-in fork tubes, measuring 7⅝"W x 2⅝"H usable, for transportation with fork truck. Steel construction with blue painted finish. Units ship knocked down. Not for use as a fork truck attachment. 10' under I-beam.

Power Lift Jib Cranes 12V DC & 115V 1-PHASE AC STANDARD

Designed for material handling applications on docks, in warehouses, or in truck beds. Choose either 12V DC, 1 HP with 6' long non-removable pendant control or 115V AC, 1/3 HP with fingertip switch to raise and lower hook. Powered winches are designed for intermediate lifting. Meets ANSI and OSHA specifications. 12" x 12" mounting plate. Unit is designed for vertical lifting only. Do not use unit for lifting personnel or overhead lifting.

A) Structural Jib Cranes feature rotation hand brakes that offer unlimited 360° manual positioning. Mast mounts permanently. Boom adjusts in 12" increments and can be positioned at 4 elevations. DC models include 46 feet of 3/16" aircraft-grade wire rope with swivel hook and safety latch. AC units feature 25 feet of 7/32" cable. Folds for storage.

B) The economical answer to your material handling problems. Offers light-duty, intermittent use. Up to 1,500 pound uniform capacity at 36" boom extension. 360° locking manual rotation, 25 feet of 7/32" cable with hook on AC units. 46 feet of 3/16" cable on DC units.

C) These cranes offer the same features as the Type A cranes with a galvanized finish.

D) These cranes offer the same features as the Type B cranes with a galvanized finish.

Hitch-Mounted Truck Jib Crane

Hitch-Mounted Truck Jib Crane easily mounts in standard Class III or higher 2" receivers. Installation and use requires no modifications to receiver or truck. Unit may be adjusted/leveled for best use in all conditions. Maximum uniform lifting capacity is 600 pounds. Manual hand brake winch with 3/16" diameter cable and lifting hook included. Offset upright design does not restrict tailgate use while installed. Crane may be installed on either side of truck as required. Rugged, welded steel construction with powder coat black finish.

Winch Operated Truck Jib Crane

Installed in your pick-up truck bed, this winch operated jib crane will help lift loads. Lift items from ground to truck bed height, then rotate into cargo area. Includes telescopic boom design with manual hydraulic hand pump to pivot boom up and down. Manual cable winch to lift and lower loads. Friction brake winch locks automatically when operator turns the handle counterclockwise to lower load. Cable length is 14½' overall, 9' usable. Cable diameter is ¼". Unit comes with one (1) grab hook, one (1) chain slot lock, and one (1) sling hook with latch. Mounting plate is 10⅝" by 10⅝". Base height is 10". Overall height is 56". The crane swivels on a 360° base. Safety yellow or galvanized finish available. Welded steel construction. 12V DC power option available.

Air/Hand Pump Hydraulic Shop Crane

This crane allows one person to maneuver product from location to location, and then lift it with everyday factory air. If air is temporarily unavailable, lift product with the hand pump hydraulic option. Air raises unit 7" to 8" per second. Hand pump raises units 1/2" per stroke. Units roll on 3 1/2" x 1 1/4" cast steel casters, (4) swivel in back (2) swivel in front. The hoist offers heavy-duty lifting power, while optimizing space when in the folded position. Standard features: foldable legs, adjustable boom, swivel hook, and steel construction.

Electric Powered Floor Cranes

Fully powered shop cranes (power hoist & power in/out boom) for moving loads quickly, easily, and safely. 24V DC drive and lift motor handles heavy-duty jobs. Ergonomic handle features easy-to-operate throttle with infinite adjustment of forward and reverse speeds, lift/lower controls, proprietary safety-enhancing emergency reverse function, and horn. Includes an electromagnetic disc brake with automatic dead-man feature that activates when user releases the handle. Powered shop crane has two (2) 12V, 80 - 95/Ah lead acid deep cycle batteries, integral battery charger, and battery level gauge. Poly-on-steel steer and load wheels. 3-4 hour operation at full charge - 8 hours when used intermittently. Includes rigid hook with safety latch. All models feature adjustable length legs. Model EPFC-25-AA features 36 1/2" to 51 1/2" adjustable width legs. When traveling over rough terrain model EPFC-25-RT works best. The front pneumatic tires are 16" x 5" while the rear rubber tires are 12 1/4" x 4".

ADJUSTABLE BAIL, MODEL HDP-AB

ADJUSTABLE
model OLA-4-42

FIXED FORKS
model OLF-4-42

Deluxe Overhead Load Lifters

The Deluxe Overhead Load Lifter is designed for lifting and moving pallets, skids, and crates with an overhead lifting crane. Includes an adjustable bail for keeping the load level when moving. Includes (3) three height positions and a usable fork length of 43" on all units. Welded steel construction. Painted finish.

MODEL NUMBER	OPENING HEIGHT	USABLE LOAD HEIGHT	FORK SIZE (W x L x H)	UNIFORM CAPACITY	NET WT. (POUND)

Coil Lifter

The hoist mounted Coil Lifter has adjustable balance points to accommodate different sized coils. Coils can be up to 90" in diameter. The top adjusting bail allows the operator to insure level transportation of load. Compact for easy storage. Steel construction. Painted finish.

MODEL NUMBER	ROD LENGTH	ROD DIAMETER	OVERALL WIDTH	UNIFORM CAPACITY	NET WT. (POUND)
HDP-CL	36"	2¾"	21"	1,500 lb.	375

Counter Balanced Floor Cranes

This Crane has an adjustable boom to allow for maximum adjustment and versatility to lift a variety of loads. Boom is raised with a manual hydraulic hand pump. Boom also telescopes out for greater reach. The counterbalance design eliminates the need for front legs, making the unit easier to maneuver and ideal for reaching tight, hard to reach areas. Units roll on two (2) rigid 8" x 2" glass-filled nylon and two (2) swivel 8" x 3" phenolic stem caster. Counterbalance included. Welded steel construction.

Hoist Trailer

Unique hoist may be towed behind a car or truck to job site and then used for hundreds of applications. Includes a class 2 ball coupler and safety chains for use with most common hitches. Features two (2) large 16" diameter pneumatic wheels, two (2) swivel casters 4" x 2" in rear, two (2) rigid 5" x 2" in front, and one (1) swivel clevis hook with safety latch at the end of the boom. Telescoping lift arm and legs, as well as a removable jack handle standard. Welded steel construction with painted finish.

Tripod Hoist Stands

Portable and adjustable height tripod provides a convenient and economical lifting support stand. Independently adjustable legs enable use on uneven surfaces. Adjust leg height in six (6) inch increments. Unit folds for convenient portability and storage. Great for access to confined spaces. Features padded pivots for smooth or spiked feet. The spiked feet are designed to be used in rough terrain. A swivel eyebolt and safety chain are standard. Chain hoist not included. Meets ANSI safety requirements for confined space Z117.1.

model GLL-28

Glass Lifters

Designed for transporting glass sheets safely and securely with its fully automated jaws clamping on both sides. The four (4) lower wheels of the lifter are used to keep the lifter above the surface, away from any abrasive particles that may scratch the glass. The four (4) upper wheels are used to create pressure between the surfaces and to guide the sheet up into the clamp. The dual sided clamp distributes its pressure evenly across the material being handled. The additional layer of vulcanized rubber on the clamp allows for added grip as well as preventing scratches on the material.

MODEL NUMBER	OVERALL SIZE (W x L x H)	GRIP RANGE	UNIFORM CAPACITY	NET WT. (POUND)

Deluxe Drywall/Panel Hoist

Hoist lifts panels for installation on ceilings or walls up to 11 feet high. Synchronized telescoping mast action for fast and smooth raising/lowering action. Easy winch operated, with built-in brake mechanism and double cables to reduce fall hazards. This hoist is affordable but very dependable with all welded steel and heavy duty construction. Dismantles to fit in the trunk of most cars and has a tail roller for easy maneuvering. 360° swivel cradle to load panels vertically or horizontally.

Polyester Lifting Slings - Double Ply

For medium to heavy-duty lifting, these double-ply lifting slings are the practical, economical answer to many lifting problems. TYPE III style with fabric ends has flat tapered eyes at both ends and can be used for all hitch types. Double capacity when used in basket-style. Reduce capacity 20% when used in choker-style. These slings meet DIN-EN 1492-1, ANSI standard B30.9 and OSHA requirements.

Crane Scales 6V DC STANDARD

Accuracy, quality, durability, and affordability are key attributes of the Crane Scales. Our digital hanging scales offer fast and reliable weighing in a compact and durable housing. Designed to withstand the most aggressive and heavy duty industrial lifting applications. Features: hook and shackle, rechargeable 6V battery, AC/DC power adapter, automatic shutoff, and convertible gross/net weight (5-digit) display. Each digit is 3/4" wide by 1 1/4" high for easy readability. Accuracy is +/- 1%. Other capacities, remote, double side display, low temp, and high temp available.

Digital Load Indicators

Take the guess work out of load measurement. This load indicator can accurately measure the weight. Simply incorporate this high tech gauge into your setup and read off the results. This is a strong, heavy duty tool which can withstand great weights and is exceedingly robust. Easy-to-read display and easy to use. The LCD display, which can tare as well as show either the gross or the net load. Light weight, compact, and ergonomic design. Ideal for difficult conditions: access or sloping ground. It can be used in conjunction with shackles and hooks. Automatic stand-by for a prolonged battery life time. Suitable for operation in ambient temperatures of 14° through 104°F.
